SUMMARY

Experienced graphic designer, former front-end developer, and current part-time digital art tutor with a robust passion for design. Specializing in user interface design through tools like Corel Draw, Adobe Photoshop, Inkscape, and Pixel Lab. I am now actively seeking an additional part-time position to further leverage my skills and creativity. Proficient in working independently, adept at managing tight deadlines, and fostering collaborative environments, I bring a dynamic blend of expertise to any design-oriented role.

EXPERIENCE

Digital Art Tutor | June 2023 – Now Kodland Indonesia

1. Providing enjoyable, dynamic and engaging classes based on provided materials.
2. Teaching the utilization of digital art software according to the lesson content and delivering explanations that are easily understandable for students.
3. Collaborate with the team to enhance and improve lessons and content materials.
4. Delivering regular and detailed reports on student's progress, improving the learning experience, and fostering children's involvement in class.
5. Implementing creative ideas to support students.

Front End Developer | February 2020 – August 2021 Softwareseni Indonesia, Yogyakarta, Indonesia

1. In my daily work routine, I actively handle and manage multiple websites from numerous overseas clients every month while prioritizing and ensuring timely completion.
2. By emphasizing code reusability and mentoring fellow developers, I actively contribute to improving team agility, enabling us to effectively work on a wide range of projects.
3. Responsively handling Australian client complaints at the help desk, I promptly deliver optimal solutions while able to communicate with diverse international clientele.
4. Setting up website templates for new clients through the CMS, I ensure seamless customization of themes, colors and incorporation various features to precisely meet client requirements and align with their brand design.

EDUCATION

Bachelor of Engineering, Information Technology Gadjah Mada University, Yogyakarta, Indonesia August 2015 – October 2019
